From check-up to support

A nationwide early-support pathway for children under 6 and their families

PILOT: ŁÓDŹ REGION • GOAL: NATIONWIDE ROLLOUT

We connect parents' observations, child health check-ups, specialist knowledge and public tools into one clear pathway: from the first concern to a concrete next step.

> After hearing "this is worth checking", every parent should also hear: "I can show you what to do next".

REGIONS	PARENTS AND CARERS	PRIMARY-CARE STAFF
16	5,000–8,000	300–500
nationwide needs assessment	planned survey responses	planned survey responses

WHAT WE ARE BUILDING

1. **Needs assessment**
   parent and primary-care surveys before final materials are designed
2. **Practice-ready toolkit**
   a concise primary-care card, parent material and a mini conversation guide
3. **Digital "what next?" pathway**
   QR access to the appropriate next step - without online diagnosis
4. **Support map**
   a "find a counselling centre near me" tool based on official public data
5. **Pilot and scale**
   Łódź region as the quality-testing ground, followed by phased nationwide rollout

CREDIBILITY

- **Scientific patronage: Dr Aleksandra Lewandowska, MD, PhD**
- Interdisciplinary team: paediatrics, psychology, pedagogy, speech therapy, neuro-speech therapy, physiotherapy and sensory integration
- Pilot-ready healthcare partners: MEDIC CENTRUM and Jutro Medical

WHY PARTNER

This is not a one-off campaign. After the pilot, the project leaves behind tools, materials, training and a digital support pathway that can be developed and made available to families across Poland.
